ABOUT

2

We are Designers, Engineers and Planners

WHAT WE DO

SSP was established in 2012 to be your One-Stop Design House for Integrated Engineering & Creative Services, offering best of a kind online studies and designs for Architecture, Civil and MEP Engineering, 2D and 3D Creation.

MISSION

Global and highly talented team of engineers, designers and planners offering INTEGRITY of creative solutions, reinforced by MODERN computerized tools, TAILORED designs and robust KNOWLEDGE to satisfy customer's needs.

VISION

Together into new era of Infra-structure and lifestyle. Let us enjoy beauty, safety and peace of mind in well-engineered environment, enhanced by the power of modern design, engineering concepts and unbridled imagination

VALUES

COMMITMENT to support our clients at every step of the project, until objectives are achieved at highest QUALITY level, either in Process, Cost, or Service.

SERVICES

We offer the A to Z full spectrum of Professional Design & Engineering Services to help all kind of verticals to have better, safer and well-engineered facilities and buildings.

OUTSOURCING

You have come to the right place if your in-house expertise are not enough, or you have a lack in resources, or your project is time-bound and budget-tight, or even if the task is not necessarily your business' specialty but you need to get it done.

FEATURES

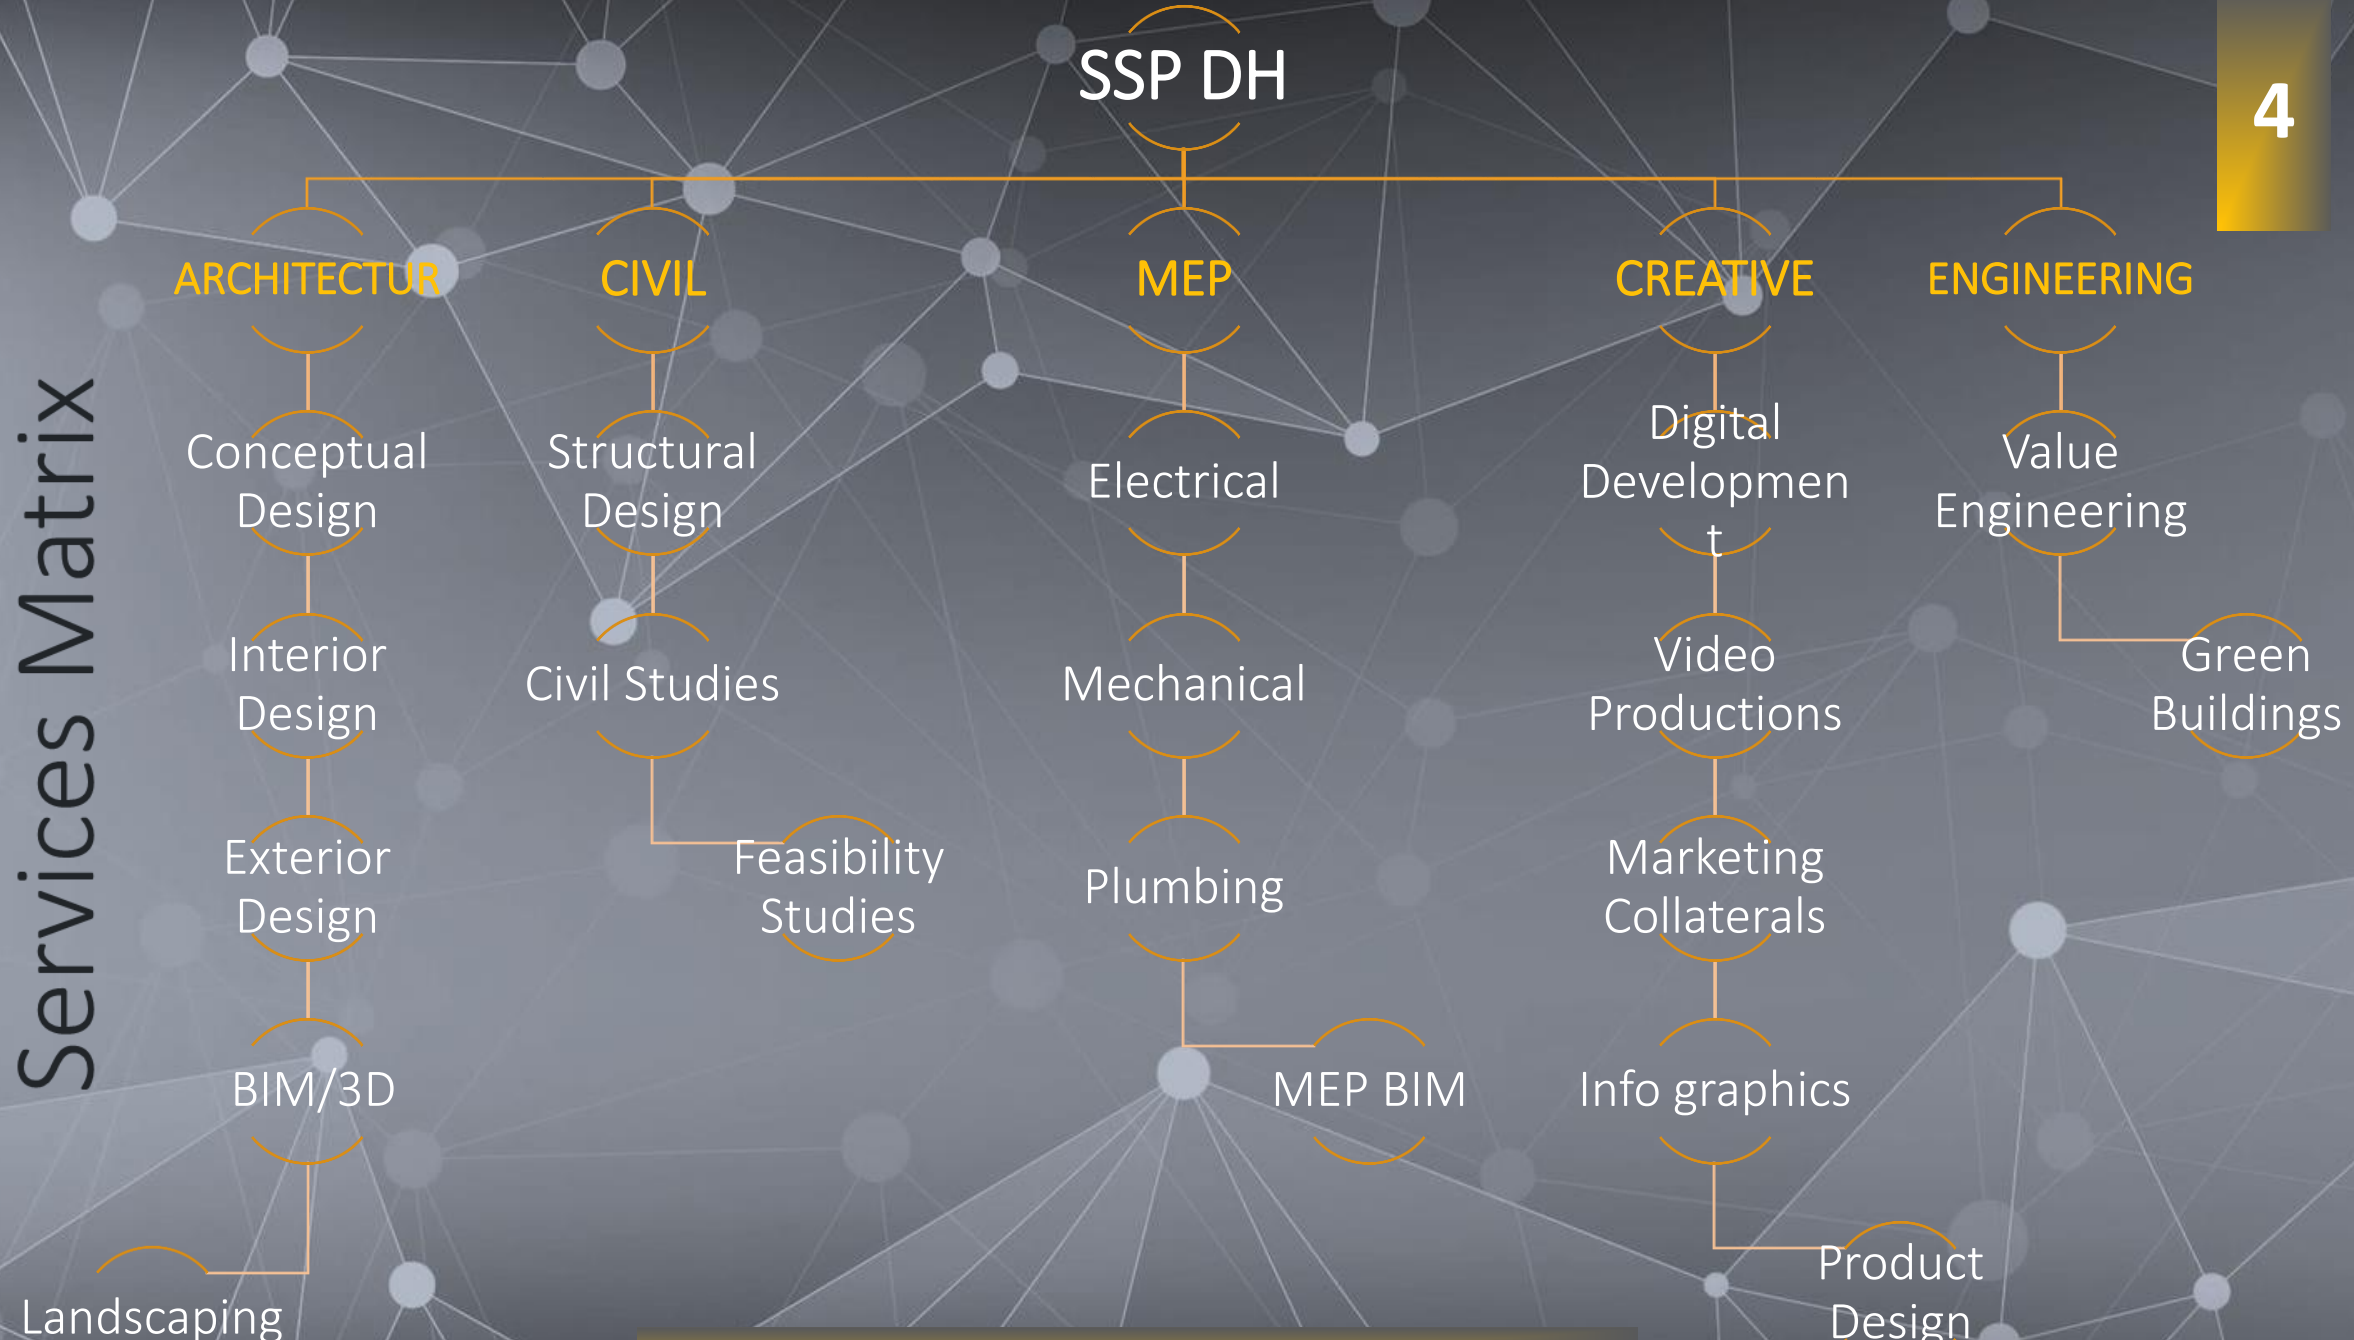

Integrated, multidisciplinary design practice dedicated to creating places and spaces that elevate the human spirit and inspire human endeavors

in accordance with industry and governmental standards, and based on latest domain technologies.

SSP professional team has the internal resources to address any Engineering challenge and deliver cost-effective and efficient designs, estimation and analysis

There's no limit to what you can get designed at SSP, explore new level of media and graphics design with our talented global community of designers

Services Matrix

BENEFITS

01

COST SAVING

Outsourcing can save your business money by having day-to-day tasks completed in a lower-cost economy.

02

ACCESS TECHNOLOGY

Outsourcing providers tend to be laser-focused on their field, they constantly invest in the newest technology that may not be feasible for an ordinary business to acquire.

03

STAFF SATISFACTION

Let your local team focus on core tasks and competencies and what motivates them, which improves business overall stability and job satisfaction in the long run.

04

SAVE RESOURCES

Outsourcing can definitely lower the ongoing investment in internal infrastructure, equipment and office space.

05

BUSINESS GROWTH

Outsourcing can free up funds that can be reinvested and with the additional support of an external team, you can increase the capacity for your business.

06

ACCESS TALENT

The highly trained professionals working at the outsourcing provider form a deep talent pool with valuable skills that, for a company to hire such professionals full-time, would be too costly.
